Leading the field with his vision, mission, education, and business, David has over 15 years of dedicated experience and understanding of the inner workings, the delicate chemistry, and hardcore mechanics of the human body and how the body is affected by the modern-day stressors of today's fast-paced, over-worked, and unbalanced lifestyle, which is literally a "killer" to our beauty, health, and longevity.

David is a true living master of what it means to "walk the talk" on the road to higher and higher levels of natural beauty, vibrant health, and peak-performance.

Through his down-to-earth and simple approach, David shows us that no problem is created without a solution and that we DO have the opportunity, right at our fingertips, to make new choices about our lifestyle and take our health back into the power of our own hands.

As the author of many best-selling books like Eating for Beauty and The Sunfood Diet Success System, David Wolfe empowers and inspires people to take charge of their health even up against all the modern-day demands of technology, environmental pollution, commuting, and inflation. By making simple, informed decisions, David shows us that we can all enjoy quality time for ourselves and with our family, because, after all, Health is Wealth! David is a living example of the next frontier of success technology. David is a sound believer in the power of the dollar to bring eco-friendly living into the mainstream and teaches, through his work, how by practicing just a few key principles anyone can improve their health, fashion, physical appearance, and sense of well-being.

In addition to running one of the busiest schedules anyone has ever seen and setting the standard and precedent for the highest-quality level of clean, organic and fair-trade superfoods, David Wolfe privately consults and inspires the ordinary into the extraordinary and the extraordinary into "peak states of flow." His celebrity fan base includes Woody Harrelson, Bryce Dallas Howard, Anthony Robbins, Angela Bassett, and many others.
